## CURRENT AWARENESS

**KnowledgeShare** is our new targeted current awareness service which will help to keep **YOU** up to date with the latest high-level evidence in **YOUR** field

**How it works:** we create your **KnowledgeShare** profile to be as broad or as specific as you need.

For example, you could receive everything published on obstetrics or limit to receive only items related to gestational diabetes

**What's included?:** guidelines, policies and a wide range of summarised evidence is added **so that you will not be inundated with primary research articles**
