The Accident & Emergency department data does not contain sufficient information to be able to provide these figures. The system logs patients referred from other healthcare providers, but that will include NHS hospitals and probably nursing homes.

In order to accurately gather the information requested the Trust would need to look at the notes of every patient referred from other healthcare providers. The Trust has estimated that it will cost more than the appropriate limit to consider this part of your request. The appropriate limit is specified in regulations and represents the estimated cost of one person spending 3½ working days in determining whether the Trust holds the information, locating, retrieving and extracting the information. Under Section 12 of the Freedom of Information Act 2000 the Trust is not obliged to comply with this part of your request and we will not be processing this part of your request further.
