22 February 2016

### **Freedom of Information Act 2000**

I am writing in response to your request for information made under the Freedom of Information Act 2000 in relation to Medicine student timetables (A100).

*I would be grateful if you could supply undergraduate timetables issued to students in years 3 - 5 of the Medicine A100 course for the academic year 2014/2015 for students placed at Tunbridge Wells Hospital and Maidstone Hospital from King's medical school. (Medicine A100 refers to the standard medicine course and does not include graduate entry medical students). If the trust feels that it is unable to provide detailed timetables for each individual student, then I would like to request a representative timetable for a typical student in years 3 – 5 of the course for the 2014/2015 academic year. I am specifically requesting timetables as they are given to the students. I would imagine it would not take a student more than 18 hours to obtain their timetable for years 3 - 5 of the course. Therefore a representative timetable for a single student will suffice.*

Year 3 students are not placed in the Trust. Year 4s are placed in O&G and Paeds only (three week rotations) and Year 5s are in Medicine and Surgery (eight week rotations). These are at both sites.

Please find attached Year 4 Paeds and O&G programmes. Year 5 Students shadow the F1 trainees and attend the F1 teaching, Grand Round and dedicated Medical Student Teaching and a Simulation session. They also attend bedside teaching and department teaching for the specialty they are attached to. Examples of the timetables are attached. The curriculum is changing at the end of this academic year so this will be subject to change. Kings Medical School will be able to provide more information on the new curriculum.

**RSH SEMINARS TOPICS at Tunbridge Wells Hospital from 29<sup>th</sup> of Sept – 28<sup>th</sup> of Nov 2014**

The resource room on Delivery suite or Seminar room on level 2 can be used

<b>DATE</b>	<b>Tutorial</b>	<b>SPEAKER</b>
<b>Week1 (1st Batch)</b>		
Mon 29 <sup>th</sup> of Sept 14	<b>Induction</b>	
Tues 30 <sup>th</sup> of Sept 14	GYN 01: Menstrual disorders	
Wed 1 <sup>st</sup> of Oct 14	OBS 01: Maternal physiology in pregnancy and labour	
Thurs 2 <sup>nd</sup> of Oct 14	OBS 02: Booking visit - normal antenatal care	
<b>Week 2</b>		
Mon 6 <sup>th</sup> of Oct 14	GYN 02: Miscarriage and ectopic pregnancy	
Tues 7 <sup>th</sup> of Oct 14	GYN 03: Acute pelvic pain including cysts	
Wed 8 <sup>th</sup> of Oct 14	Visit To Birth Centre	
Thurs 9 <sup>th</sup> of Oct 14	OBS 03: Pre-pregnancy counselling	
<b>Week 3</b>		

Mon 13 <sup>th</sup> of Oct 14		
Wed 15 <sup>th</sup> of Oct 14	GYN 04: Dysmenorrhoea – chronic pain and endometriosis	
Thurs 16 <sup>th</sup> of Oct 14	OBS 04: Anaemia in pregnancy	
<b>Week 4 ( 2nd Batch)</b>		
Mon 20 <sup>th</sup> of Oct 14		
Tues 21 <sup>st</sup> of Oct 14	GYN 07: Sub fertility	
Wed 22 <sup>nd</sup> of Oct 14	GYN 06: Pelvic Mass	
<b>Week 5</b>		
Mon 27 <sup>th</sup> of Oct 14	OBS 05: Anomaly scan and prenatal diagnosis	
Tues 28 <sup>th</sup> of Oct 14	GYN 10 Menopause and osteoporosis	
Wed 29 <sup>th</sup> of Oct 14	OBS 07: Management of labour / Visit to Birthing Unit at Maidstone	
<b>Week 6</b>		
Mon 3 <sup>rd</sup> of Nov 14	OBS 06: Monitoring the fetus	

Tues 4 <sup>th</sup> of Nov 14
