Freedom of Information Act 2000

I am writing in response to your request for information made under the Freedom of Information Act 2000 in relation to the number of patients hospitalised for self-harming in 2013-2016.

For the following financial years 2013-14, 2014-15 and 2015-16 up to March 2016

How many patients have been hospitalised for self-harm?

Can you please provide an age breakdown of the patients hospitalised for self-harming?

Can you please reveal the number of patients who were male and how many were female?

Due to the small number of cases and in order to protect patient confidentiality the age groups have been banded together. Please see the following tables:
