21 February 2018

Freedom of Information Act 2000

I am writing in response to your request for information made under the Freedom of Information Act 2000 in relation to Admissions via A&E.

- 1. How many patients visiting A&E each week who required admission were admitted within four hours? Please also provide the total number of patients attending A&E, for context.*
- 2. What percentage of patients who required admission were admitted within four hours?*
- 3. What was the average (mean) length of time between arrival and admission for patients who required admission each week?*
- 4. How many patients who required admission were in A&E for more than 12 hours? Please note, I would like the number of patients who were in the department for more than 12 hours from the time they arrived, not those who waited more than 12 hours from decision to admit to admission.*
- 5. Each week, what was the longest amount of time a patient spent in A&E between arrival and admission? I would like to know their age and sex.*
- 6. I would appreciate it if you could provide the same information for the financial year 2016/17, 2015/16 and so on, back as far as records allow.*

Please note that a '12 hour breach' is not simply a patient that has gone more than 12 hours between arrival and their attendance conclusion. There may be perfectly legitimate clinical reasons for these to occur.

A 12 hour breach is defined as waiting more than 12 hours between the Decision to Admit and the Admission. These are fairly rare events (<5 per year). Care must be taken in the interpretation of the maximum time in department (TiD), as many patients in excess of 16-20hrs have legitimate clinical reasons for remaining in the department so long.

The Trust has used the A&E definition of 'Admitted', which does not include patients who have only gone into CDU (Clinical Decision Unit) and no further into the hospital.

Data goes back to April 2014. Further information is not held in a reasonably accessible format and cannot be obtained within the allowed timescale.

Please see the following tables:

Q1. WeekEnding	Total Patient Arrivals	Admitted & TiD <4hrs	WeekEnding	Total Patient Arrivals	Admitted & TiD <4hrs
