The Trust has estimated that it will cost more than the appropriate limit to fully respond to your request. The appropriate limit is specified in regulations and represents the estimated cost of one person spending $3\frac{1}{2}$ working days in determining whether the Trust holds the information, locating, retrieving and extracting the information. Under Section 12 of the Freedom of Information Act 2000 the Trust is not obliged to comply with this part of your request and we will not be processing this part of your request further.

However we can supply you with figures for the number of requested staff working for the Trust on a specific date. The following figures are for 11 April 2016.
