

Patient Advice and Liaison Service (PALS)

If it matters to you, it matters to us

What is PALS?

The Patient Advice and Liaison Service (PALS) is a friendly, easy to access service for patients and visitors of Maidstone and Tunbridge Wells Hospitals.

We are here to help people using services provided by the Trust. If you have any questions or concerns about the service you have received from our hospitals, this leaflet will explain what to do.

How can PALS help me?

PALS can:

- help answer any questions you may have about Trust services
- provide information on Trust services
- record and pass on your comments and compliments
- help resolve any concerns you have about the services provided at our hospitals

Unfortunately, PALS can't:

- give out test results
- provide clinical advice
- issue refunds
- deal with enquiries relating to services not provided by the Trust

Dealing with concerns

An important part of PALS work involves helping people who are unhappy with a service provided by the hospital.

If you are worried, confused or concerned about any aspect of a hospital service, please tell us as soon as possible. If you are on a ward, ask to speak to the ward manager. If you are in a clinic, ask for help at reception. In many cases, our staff will be able to deal with your concerns then and there.

If this isn't possible, or your concerns are not resolved after talking to staff, contact PALS. We will work with you to try to resolve your concerns as quickly as possible.

To help us do this, please provide:

- your full name, address and daytime telephone number
- the patient's full name, date of birth and hospital number (if known)
- as much information as possible, including names of staff, dates, times and locations of events

If you are contacting us on behalf of someone else, we may need to obtain their consent for you to act on their behalf. We will discuss this with you when you get in touch with us.

In some cases, it may not be possible to deal with your concerns through PALS. If this happens, we will explain why and direct you to another service or to our formal complaints process.

Will raising concerns affect my care?

No, absolutely not. Patients have the right to raise concerns about the service they have received. We want to know if you are unhappy so that we can try to put things right. Details of your contact with PALS are not held within your healthcare records and only those people who need to know will be aware that you have contacted us. If you have any worries in this respect, please speak to a member of PALS staff.

Frequently asked questions

Can PALS change my appointment/admission date?

Unfortunately, the PALS team are not able to make or amend appointments or admission dates. Please contact the relevant Clinical Administration Unit using the number provided on your appointment/admission letter or via:

Main switchboard

 01622 729000

My admission was cancelled – can you guarantee it won't happen again?

Unfortunately, we can never offer such a guarantee, due to the unpredictable nature of the hospital environment. Both our hospitals have busy emergency departments which means we cannot always be certain about the number of patients who may need to be admitted as an emergency. We understand the impact that cancelling an admission has and for this reason, we monitor our bed situation extremely closely and will do all we can to honour admission arrangements. However, patient safety is our priority and we will not compromise this.

How can I get a copy of my healthcare records?

Information on applying for access to healthcare records and the application form can be found on the Trust's website:
