## Freedom of Information Act 2000

I am writing in response to your request for information made under the Freedom of Information Act 2000 in relation to Neuromuscular conditions.

For the purposes of this request:

- Neuromuscular conditions refer to any such conditions, including all types of Muscular dystrophy;
- Muscular dystrophy refers to all such conditions including Duchenne muscular dystrophy; and
- Duchenne muscular dystrophy refers only to that specific condition
- 1. Please provide information on the total number of unplanned admissions to your Trust for patients with the following conditions broken down by hospital (where appropriate) and by calendar year since 2011 including data for 2017 to date. If you hold data by financial year then that is acceptable also:
- a. Neuromuscular conditions this includes any peripheral neuropathy, guillain barre syndrome, myasthenia gravis, any primary muscle disease, this is a very wide classification including lots of different conditions
- b. Muscular dystrophies includes Duchenne, Becker, myotonic dystrophy, and any genetic muscular dystrophy
- c. Duchenne muscular dystrophy these will be mostly children, mostly male
- 2. Please provide a breakdown of the reasons for the unplanned admissions e.g. Accident, breathing problems, etc this should be broken down by the relevant data sets that you hold, broken down by hospital (where appropriate) and by calendar year since 2011 including data for 2017 to date. If you hold data by financial year then that is acceptable also.
- 3. Please provide the following outcomes broken down by the same hospitals (as appropriate), calendar (or financial) years for each condition as detailed above:
- a. Discharged from A&E
- b. Admitted to hospital and subsequently discharged
- c. Died

- 4. Please provide a breakdown of unexpected deaths of patients in your Trust broken down by the above conditions and by the same hospitals (as appropriate), and by calendar (or financial) years.
- 5. Please provide details of any changes that your Trust has made to care and other policies as a result of unexpected deaths of patients with the referenced conditions in the time period stated.
- 6. Please provide a copy of the protocols to be followed by all paramedic, ambulance and A&E staff dealing with an unplanned admission of a patient with one of the specified conditions.
- 7. Please provide details of adaptations provided by hospitals in your trust for persons with neuromuscular (and other) conditions who may not be ambulant, or who may be unable to lift items such as cutlery, press buttons etc. For example, provision of hoists, wash/dry toilets, adapted call buttons; intercom systems; modified cutlery; provision of staff to feed a patient who is unable to do so him or herself due to muscle wasting.
- 8. Please provide details of the procedures hospitals in your trust follow if a physiotherapist is required at night for persons who have a neuromuscular condition, especially if physiotherapists are not normally on duty in the night.

## 1. Number of non-elective admissions Jan 2011 - June 2017 with the following ICD10 codes in primary and secondary positions by hospital

a. Neuromuscular conditions – ICD10 codes G60\* to G64\* or G70\* to G73\* inclusive

| Jan 2011-Jun 2017 | MAID | TWH | KS | TCH | <b>Grand Total</b> |
|-------------------|------|-----|----|-----|--------------------|
| 2011              | 95   | 33  | 87 |     | 215                |
| 2012              | 94   | 120 |    | 1   | 215                |
| 2013              | 109  | 183 |    | 1   | 293                |
| 2014              | 107  | 146 |    | 1   | 254                |
| 2015              | 127  | 144 |    | 2   | 273                |
| 2016              | 167  | 141 |    |     | 308                |
| 2017              | 62   | 80  |    |     | 142                |
| Grand Total       | 761  | 847 | 87 | 5   | 1700               |

b. Muscular dystrophies – ICD10 codes used G71\* inclusive (therefore also included in the above)

| Jan 2011-Jun 2017  | MAID | TWH | KS | TCH | <b>Grand Total</b> |
|--------------------|------|-----|----|-----|--------------------|
| 2011               | 10   | 5   | 9  |     | 24                 |
| 2012               | 10   | 16  |    | 1   | 27                 |
| 2013               | 8    | 21  |    |     | 29                 |
| 2014               | 10   | 24  |    |     | 34                 |
| 2015               | 17   | 24  |    |     | 41                 |
| 2016               | 19   | 33  |    |     | 52                 |
| 2017               | 2    | 17  |    |     | 19                 |
| <b>Grand Total</b> | 76   | 140 | 9  | 1   | 226                |

c. Duchenne muscular dystrophy – ICD10 code used G71.0 (therefore also included in both tables above)

| Jan 2011-Jun 2017 | MAID | TWH | KS | тсн | <b>Grand Total</b> |
|-------------------|------|-----|----|-----|--------------------|
| 2011              | 4    | 3   | 5  |     | 12                 |
| 2012              | 7    | 4   |    | 1   | 12                 |
| 2013              | 7    | 9   |    |     | 16                 |
| 2014              | 10   | 10  |    |     | 20                 |

| Grand Total | 47 | 58 | 5 | 1 | 111 |
|-------------|----|----|---|---|-----|
| 2017        | 1  | 9  |   |   | 10  |
| 2016        | 9  | 14 |   |   | 23  |
| 2015        | 9  | 9  |   |   | 18  |

## 2 Breakdown of patients from question 1 by primary diagnosis, i.e. main reason for admission

a. Neuromuscular conditions – ICD10 codes G60\* to G64\* or G70\* to G73\* inclusive

| 2011   | MAID         | TWH | KS | Grand<br>Total |
|--|--------------|-----|----|----------------|
| Guillain-Barré syndrome                                      | 9            | 7   | 2  | 18             |
| Urinary tract infection, site not specified                  | 7            | 2   | 1  | 10             |
|  |              |     | 5  |                |
| Type 2 diabetes mellitus                                     | 2            | 1   | 3  | 9              |
| Lobar pneumonia, unspecified                                 |              |     |    | 6              |
| Atrial fibrillation and flutter                              | 2            | 2   | 1  | 5              |
| Syncope and collapse   |              | 1   | 4  | 5              |
| Chron obstruct pulmonary dis wth acute exacerbation, unspec  | 1            | 1   | 2  | 4              |
| Polyneuropathy, unspecified                                  | 1            |     | 3  | 4              |
| Unspecified acute lower respiratory infection                | 4            |     |    | 4              |
| Cellulitis of other parts of limb                            | 1            | 1   | 2  | 4              |
| Transient cerebral ischaemic attack, unspecified             | 3            | 1   |    | 4              |
| Acute myocardial infarction, unspecified                     | 1            | 1   | 2  | 4              |
| Type 1 diabetes mellitus                                     | 2            |     | 1  | 3              |
| Unspecified injury of head                                   |              |     | 3  | 3              |
| Ulcer of lower limb, not elsewhere classified                | 2            |     | 1  | 3              |
| Chest pain, unspecified                                      |              | 1   | 2  | 3              |
| Other cerebral infarction                                    | 1            |     | 2  | 3              |
| Noninfective gastroenteritis and colitis, unspecified        | 1            | 1   | 1  | 3              |
| Alcoholic liver disease, unspecified                         |              | 2   |    | 2              |
| Influenza with pneumonia seasonal influenza virus identified |              |     | 2  | 2              |
| Fractures of other parts of lower leg                        |              |     | 2  | 2              |
| Asthma, unspecified  | 1            |     | 1  | 2              |
| Subtrochanteric fracture                                     | 2            |     |    | 2              |
| Unstable angina  | 1            |     | 1  | 2              |
| Fracture of lower end of tibia                               |              |     | 2  | 2              |
| Cellulitis of finger and toe                                 | 2            |     |    | 2              |
| Gout, unspecified  |              | 2   |    | 2              |

## 3. The number of all the patients identifed in question 1 whose outcome was died or discharged

Of which, the number which came via A&E - please note these are all inpatients it is not possible to identify any with these conditions who attended A&E and were not admitted as the A&E coding is not sufficient to give this detail of conditions

a. Neuromuscular conditions – ICD10 codes G60\* to G64\* or G70\* to G73\* inclusive

- 4. The Trust does not hold this information in a reportable format and has estimated that it will cost more than the appropriate limit to consider this part of your request. The appropriate limit is specified in regulations and represents the estimated cost of one person spending 3½ working days in determining whether the Trust holds the information, locating, retrieving and extracting the information. Under Section 12 of the Freedom of Information Act 2000 the Trust is not obliged to comply with this part of your request and we will not be processing this part of your request further.
- 5. The Trust is not aware of any such changes.
- 6. The Trust is not aware of any such protocols for adult patients. The Trust is currently looking at a patient passport for children with additional needs not just Duchenne. However current practice is having an open access letter which details a plan of care and also fast tracks patient to paediatrics. Parents and the ward have a copy of this and it is also in the patients notes.

7.

Mobile hoists available on wards Some modified cutlery available

8. An emergency respiratory physiotherapy on call service is available 24 hours a day for those who meet the respiratory on call clinical criteria (ie clinical deterioration if not seen)
