Freedom of Information Act 2000

I am writing in response to your request for information made under the Freedom of Information Act 2000 in relation to Neuromuscular patients.

You asked:

- *The numbers of unplanned admissions from January 2015 – April 2019 where the primary reason for the admission was related to a patient's neuromuscular condition*
- *The numbers of unplanned admissions from January 2015 – April 2019 for patients with a neuromuscular condition where their condition was not the primary reason of their admission*

Trust response:

Please note: We have used the codes that were listed in the PDF document and have listed them again for clarity on the following. Where codes appear, all characters under these codes are included, e.g. under code G12, there will be any occurrence of G12.0 and G12.1 etc.

The first table shows where the codes appear in the primary position only. The second table is where they appear in any secondary diagnosis. However, please note there were 6 that occurred in the second table who also have a primary diagnosis also recorded of one of the codes, so are included in the first total.

This is all non-elective admissions for January 2015 to April 2019 inclusive where the codes specified have been used.

Non-Elective admission with primary diagnosis of Neuromuscular conditions

January 2015 - April 2019

YYYY-MM	(All)
---------	-------

Count of DistrictNumber

217

Non-Elective admission with secondary diagnosis of Neuromuscular conditions

January 2015 - April 2019

YYYY-MM	(All)
---------	-------

Row Labels	Count of DistrictNumber
Also in PRIM*	6
Only in SEC	1904
Grand Total	1910

* N.B. the 6 with a secondary diagnosis who also had a primary diagnosis so appear in both totals

ICD10 codes used as listed in requestors PDF guidance document

N.B. The following codes beginning with these codes, i.e. all subsequent characters also included

E74

G12

G13

G60

G61

G62

G63

G70

G71

G72
