13 June 2019

Freedom of Information Act 2000

I am writing in response to your request for information made under the Freedom of Information Act 2000 in relation to Intravitreal injections or implants.

You asked:

I have a Freedom of Information request regarding Ophthalmology. Within your Trust how many Intra-vitreous Injections / Implants have been used in the latest 4 months, if possible between September and December 2018.

If your Trust is able to identify Injections / Implants by eye conditions please split by the drug used (Ranibizumab, Bevacizumab, Aflibercept, Fluocinolone and Dexamethasone)

Trust response:

Please note: Bevacizumab is not rechargeable and therefore we do not keep records of this drug with condition.

Please see the following table.

	Lucentis (Ranibizumab) Injections	Avastin (Bevacizumab) Injections	Eylea (Aflibercept) Injections	Iluvien (Fluocinolone) Implants	Ozurdex (Dexamethasone) Implants
TOTAL					
Wet Age Related Macular Degenerati	766		1529
