10 September 2020

Freedom of Information Act 2000

I am writing in response to your request for information made under the Freedom of Information Act 2000 in relation to Continence Formulary.

You asked:

I would like to please request the Continence Formulary of the Maidstone and Tunbridge Wells NHS Trust. May I please have the Continence Formulary attached in a response or may I please be directed to where it is available online? By this, I am specifically interested in continence appliances (catheters etc.).

Trust response:

Maidstone and Tunbridge Wells NHS Trust does not have a Continence Formulary but please find below a list of the products currently purchased compiled with the assistance of the Urology Department.

Intermittent catheter urethral nelaton female funnel end rounded tip 1 lateral eye PVC 12fg x 23cm long
Self retaining catheter (Foley) 2-way standard (male) hydrogel coated Indwelling hydrogel coated catheter male std 40cm long ch16 3 months
Self retaining catheter (Foley) 2-way standard (male) hydrogel coated Indwelling hydrogel coated catheter male std 40cm long ch18 3 months
Self retaining catheter (Foley) 2-way standard (male) hydrogel coated Indwelling hydrogel coated catheter male std 40cm long ch20 3 months
Self retaining catheter (Foley) 2-way Long term female hydrogel coated with pre-filled syringe 18fg x 10ml balloon
Catheter valve Lever tap to be used with indwelling catheter
Catheter valve With 180 degree lever tap
Catheter valve Careline sterile catheter valve with lever tap
Self retaining catheter (Foley) 2-way long term standard (male) hydrogel coated with pre-filled syringe in use time 21-90 days 18fg x 10ml Balloon 40cm Long

Catheter strap Adult 50cm Long
Self retaining catheter (Foley) 2-way medium term standard (male) PTFE coated latex with pre-filled syringe in use time up to 28 days 12fg x 10ml balloon
Self retaining catheter (Foley) 2-way medium term standard (male) PTFE coated latex with pre-filled syringe in use time up to 28 days 14fg x 10ml balloon
Self retaining catheter (Foley) 2-way medium term standard (male) PTFE coated latex with pre-filled syringe in use time up to 28 days 16fg x 10ml balloon
Self retaining catheter (Foley) 2-way long term standard (male) hydrogel coated with pre-filled syringe in use time up to 90 days 14fg x 10ml balloon
Self retaining catheter (Foley) 2-way long term standard (male) hydrogel coated with pre-filled syringe in use time up to 90 days 16fg x 10ml balloon
Self retaining catheter (Foley) 2-way long term male 100% silicone in use time 0-90 days 12fg x 10ml balloon
Self retaining catheter (Foley) 2-way long term standard (male) 100% silicone with pre-filled syringe in use time up to 90 days 14fg x 10ml balloon
Self retaining catheter (Foley) 2-way long term female 100% silicone with pre-filled syringe 12fg x 10ml balloon
Self retaining catheter (Foley) 2-way long term standard (male) - 100% silicone 12fg x 10ml balloon 40cm long. suitability for duration of use 90 days (3 months)
Self retaining catheter (Foley) 2-way long term standard (male) - 100% silicone 12fg x 10ml balloon 40cm long. suitability for duration of use 90 days (3 months)
Self retaining catheter (Foley) 2-way long term standard (male) - 100% silicone 14fg x 10ml balloon 40cm long. suitability for duration of use 90 days (3 months)
Self retaining catheter (Foley) 2-way long term standard (male) - 100% silicone 16fg x 10ml balloon 40cm long. suitability for duration of use 90 days (3 months)
Self retaining catheter (Foley) 2-way long term standard (male) - 100% silicone 18fg x 10ml balloon 40cm long. suitability for duration of use 90 days (3 months)
Self retaining catheter (Foley) 2-way long term female 100% silicone - in use time up to 90 days 14fg x 10ml balloon 26cm long 3 months
Self retaining catheter (Foley) 2-way long term female 100% silicone - in use time up to 90 days 16fg x 10ml balloon 26cm long 3 months
Self retaining catheter (Foley) 2-way long term standard (male) hydrogel coated with pre-filled syringe in use time 21-90 days 12fg x 10ml balloon 40cm long
Self retaining catheter (Foley) 2-way long term standard (male) hydrogel coated with pre-filled syringe in use time 21-90 days 14fg x 10ml balloon 40cm long
Self retaining catheter (Foley) 2-way long term standard (male) hydrogel coated with pre-filled syringe in use time 21-90 days 16fg x 10ml balloon 40cm long
Self retaining catheter (Foley) 2-way medium term standard (male) PTFE coated latex with pre-filled syringe in use time up to 28 days 12fg x 10ml balloon 40cm long 28 days
Self retaining catheter (Foley) 2-way medium term standard (male) PTFE coated latex with pre-filled syringe in use time up to 28 days 14fg x 10ml balloon 40cm long 28 days
Self retaining catheter (Foley) 2-way medium term standard (male) PTFE coated latex with pre-filled syringe in use time up to 28 days 16fg x 10ml balloon 40cm long 28 days
Suprapubic Foley Seldinger Catheter Introducing Set 18g hypodermic needle. 3 stage guide wire. dilator and peelable sheath. silicone Foley catheter 43cm 14fg
Self retaining catheter (Foley) 3-way short term standard (male) PVC in use time 0-7 days 20fg x 30ml balloon 42cm long
Self retaining catheter (Foley) 3-way short term standard (male) PVC in use time 0-7 days 18fg x 20ml balloon 42cm long

Catheter urethral haematuria 3-way couvelaire tip soft PVC 42cm long in use time 0-7 days silicone treated latex 18fg x 30ml balloon
Catheter urethral haematuria 3-way couvelaire tip soft PVC 42cm long in use time 0-7 days silicone treated latex 22fg x 30ml balloon
Catheter urethral haematuria 3-way couvelaire tip soft PVC 42cm long in use time 0-7 days silicone treated latex 24fg x 30ml balloon
Self retaining catheter (Foley) 2-way long term standard (male) hydrogel coated silicone - in use time 21-90 days 12fg x 10ml balloon
Self retaining catheter (Foley) 2-way medium term standard (male) PTFE coated latex - in use time 0-28 days 14fg x 30ml balloon
Self retaining catheter (Foley) 2-way medium term standard (male) PTFE coated latex - in use time 0-28 days 16fg x 30ml balloon
Self retaining catheter (Foley) 2-way medium term standard (male) PTFE coated latex - in use time 0-28 days 18fg x 30ml balloon
Self retaining catheter (Foley) 2-way medium term standard (male) PTFE coated latex - in use time 0-28 days 20fg x 30ml balloon
Self retaining catheter (Foley) 2-way medium term standard (male) PTFE coated latex - in use time 0-28 days 24fg x 30ml balloon
Self retaining catheter (Foley) 2-way medium term paediatric PTFE coated latex - in use time 0-28 days Paediatric ptf 30cm 2 way 5ml balloon 8ch
Self retaining catheter (Foley) 2-way medium term paediatric PTFE coated latex - in use time 0-28 days Paediatric ptf 30cm 2 way 5ml balloon 10ch
Self retaining catheter (Foley) 2-way medium term paediatric PTFE coated latex - in use time 0-28 days Bardia ptf aquafil Foley cath 08ch 5ml balloon includes prefilled syringe of sterile water
Self retaining catheter (Foley) 2-way medium term paediatric PTFE coated latex - in use time 0-28 days Bardia ptf aquafil Foley cath 10ch 5ml balloon includes prefilled syringe of sterile water
Self retaining catheter (Foley) 2-way long term male 100% silicone in use time 0-90 days 18fg x 10ml 41cm long with pre filled syringe
Intermittent catheter hydrophilic with sterile water female 12Ch
Nelaton/intermittent catheter hydrophilic female Nelaton intermittent catheter hydrophilic coating with integrated water or saline ch12 20cm long female
Catheter suprapubic with introducer needle 14g x 11 inch catheter 18fg x 11 inch needle
Self retaining catheter (Foley) 3-way medium term standard (male) PTFE coated latex 30ch 30ml balloon
Intermittent catheter hydrophilic female 12ch hydro gel coated female olive tip 20cm latex free
Self retaining catheter (Foley) 2-way long term standard (male) 100% silicone with pre-filled syringe in use time up to 90 days 12ch brilliant all silicone tieman tip 41cm 1eye 10ml prefilled syringe 10% glycerine solution up to 12 weeks
Self retaining catheter (Foley) 2-way long term standard (male) 100% silicone with pre-filled syringe in use time up to 90 days 14ch brilliant all silicone tieman tip 41cm 1eye 10ml prefilled syringe 10% glycerine solution up to 12 weeks
Self retaining catheter (Foley) 2-way long term standard (male) 100% silicone with pre-filled syringe in use time up to 90 days 16ch brilliant all silicone tieman tip 41cm 1eye 10ml prefilled syringe 10% glycerine solution up to 12 weeks
Self retaining catheter (Foley) 2-way long term standard (male) 100% silicone with pre-filled syringe in use time up to 90 days 18ch brilliant all silicone tieman tip 41cm 1eye 10ml prefilled syringe 10% glycerine solution up to 12 weeks
Self retaining catheter (Foley) 2-way medium term standard (male) PTFE coated latex 30ml balloon ch12

Urine meter Curity 200ml capacity urine meter 2000ml closed needle free sampling bag with 150cm tubing
Urine meter New shorter design 500ml chamber 2 litre bag 110cm tubing with KombiKon needle-free sample port plus hanging straps and hook latex free
Sheath incontinence one piece system short sheath self-adhesive silicone clear 25mm
Sheath incontinence one piece system short sheath self-adhesive silicone clear 30mm
Sheath incontinence one piece system short sheath self-adhesive silicone clear 35mm
Baby urine collection bag Sample collection 120ml Infant boys weighing more than 2.5kg
Baby urine collection bag Sample collection 120ml Infant girls weighing less than 2.5kg
Baby urine collection bag 200ml paediatric sterile regular adhesive
Baby urine collection bag 10ml premature sterile microporous adhesive
Baby urine collection bag 200ml paediatric sterile microporous adhesive
Urine drainage bag leg fitting long tube lever tap sterile 500ml with safety-lock tap 25cm
Urine drainage bag leg fitting short tube lever tap sterile 500ml with safety lock tap 6cm
Urine drainage bag with non-return valve non drainable non sterile 2000ml 100cm inlet tube with tear strip for emptying and opaque backing
Urine drainage bag post-operative 4000ml with E2 lock needle free sample port non-return valve and control fit outlet device 5-7 days
Urine drainage bag with non-return valve drainable non sterile 2000ml with single use tap
Urine drainage bag with non-return valve drainable sterile 2000ml lever tap
Urine drainage bag with non-return valve drainable sterile 2000ml T-tap
Urine drainage bag post-operative 4 litre bedside urine bag with needle free sample port t tap
