Trust response:

Standard Firewall network:

1. There are no supplier contracts. All the Firewalls were purchased outright and configured in-house.
2. The Firewalls were purchased outright. For type B, these are covered by a partner support arrangement under a wider network support contract and we do not have specific breakdown of Firewall costs available.
3. The subscription service for type A includes advanced hardware replacement and software maintenance as well as support from the vender and the partner. The software subscription includes real-time updates, such as anti-virus patterns.

Microsoft Enterprise Agreement:

1. Insight Direct (UK) Ltd
2. The Trust is applying Section 43(2) FOIA which provides an exemption from disclosure of information which would or would be likely to, prejudice the commercial interests of any person (including the public authority holding it). This is a qualified exemption, and is therefore subject to the public interest test.

The Trust believes that the information requested contains details which would be likely to damage the companies ability to win new business

opportunities for their services and to perform them within a commercially competitive market.

The Trust has concluded that the public interest in maintaining the exemption, and therefore protecting the commercial interests of the suppliers and preserving its ability to compete fairly in a commercial market, outweighs the public interest in disclosure in this case.

Supplier Transactions

All NHS bodies are required to publish details of individual invoices and transactions that are over £25,000. This is in response to guidance from HM Treasury which sets out the scope of the data. Details can be found on our website using the following link: www.mtw.nhs.uk/about-us/our-quality-story/finance/
