How many died off covid with no underlaying issues ? How many people died of flu in between Dec 2019 and to present date ?*

*I would like to know all off these number is statics in between November 2019 up until present date ? How many people died in this time frame off other illnesses not related to covid ?*

Trust response:

The Trust is able to advise how many patients have died in hospital with no comorbidities (including obesity) detailed on their death certificates i.e., death certificates that are clean except for Covid 19 recorded in section 1a (please see below). It should be noted that this data may not accurately respond to the question asked.
