How to access a BSL, face-to-face and telephone foreign language interpreter

Having identified the need for a foreign language or British Sign Language interpreter, staff must ensure this is recorded in the patient's healthcare records and on any electronic patient information system.

Face-to-face interpreters are limited to situations involving:

- Breaking bad news
- British Sign Language (including hands on/hands under translation)

- For people with a learning disability/communication need
- Eye day-care cases

Pre-booking is necessary for face-to-face interpreters. Bookings should be made as soon as possible.

For foreign language face-to-face interpreters, at least 48 hours' notice is required.

For BSL or hands on interpreters, at least five calendar days' notice is required.

However, OnCall Interpreters will endeavour to provide face-to-face interpreters in shorter timescales where needed urgently.

For telephone interpreting, this can be pre-booked or can be on the day.

Process

Either email

or call them on

- press 1 for public sector interpreting, then
 - 1 for telephone interpreting, **or**
 - 2 for face-to-face interpreting, **or**
 - 3 for written translation services

Some of the information you will need to provide is:

- Client ID and unique identifier
- Date and time the interpreter is required
- Location including hospital and department/ward
- Hospital number of patient (**not** the patient name)
- Language required, including British Sign Language, Hands On/Hands Over
- Estimated duration needed
- Any other information such as requesting a particular interpreter/sex of interpreter etc.
- Contact details of person requesting the booking – email and telephone

Please note: Bookings cannot be taken without the Client ID and unique identifier

4. No Not applicable

5. Yes

a. Under Section 21 of the Act we are not required to provide information in response to a request if the information is already reasonably accessible to you. The information you requested is available from the trust website WWW.MTW.NHS.UK Please enter Translation or Interpreter services into the search box and the response will be shown. Alternatively please use the following link: <http://www.mtw.nhs.uk/wp-content/uploads/2020/09/Translation-or-interpreter-services.-280820.pdf>

b. The Trust is applying Section 43(2) FOIA which provides an exemption from disclosure of information which would or would be likely to, prejudice the commercial interests of any person (including the public authority holding it). This is a qualified exemption, and is therefore subject to the public interest test.

The Trust believes that the information requested contains details which would be likely to damage the companies ability to win new business opportunities for their services and to perform them within a commercially competitive market.

The Trust has concluded that the public interest in maintaining the exemption, and therefore protecting the commercial interests of the suppliers and preserving its ability to compete fairly in a commercial market, outweighs the public interest in disclosure in this case.

Supplier Transactions

All NHS bodies are required to publish details of individual invoices and transactions that are over £25,000. This is in response to guidance from HM Treasury which sets out the scope of the data. Details can be found on our website using the following link: www.mtw.nhs.uk/about-us/our-quality-story/finance/

6.

a. LPP Language Services Framework DN346448.

b. Oncall – Contract duration 9th September 2019 to 8th September 2022

7. The fees are not paid from a central budget. They are charged to each department which requests the service.

a. This role falls under the remit of the Chief People Officer Sue Steen.

Contact details can be found on the Trust website.

8. Data not available

9. Allowed in exceptional circumstances ONLY should the interpreting service be unable to provide an interpreter and any delay to the patient would not be in their best interest.

10. Falls under the remit of Sue Steen, Chief People Officer
