12 May 2022

### Freedom of Information Act 2000

I am writing in response to your request for information made under the Freedom of Information Act 2000 in relation to Hospital acquired Covid-19.

*You asked:*

- 1. The number of people who were infected with Covid-19 inside your hospitals - so the patients who tested positive for Covid-19 after testing negative when they were first admitted. Please may I have the figures broken down for the number of hospital-acquired infections for each individual hospital.*
- 2. The number of people who after being infected with Covid inside the hospital, then died of or with the virus, whilst in hospital, or after discharge. Please may I also have these figures broken down for the number of deaths for each individual hospital.*

Trust response:

Please note: You confirmed that the timeframe in question was from March 2020 until present. The dates used are March 2020 to May 11 2022. The Trust does not have the data to identify patients who died following discharge from the hospital.

Site	1. Number of patients with a positive swab +15 days of admission	2. Number of patients who have died where their positive swab was +15 days of admission whilst in hospital
