Freedom of Information Act 2000

I am writing in response to your request for information made under the Freedom of Information Act 2000 in relation to digital services.

You asked: All questions are shown as received by the Trust.

- In your trust what digital services are used in the running of the trust/patient care?*
- For each of these services, what is the funding structure of these systems? (Eg. licensing / one-off purchase / monthly or yearly subscription)*
- For each of these services what is the corresponding cost of these services (Eg. cost per license / cost of one-off purchase / cost of monthly or yearly subscription)*
- What is your overall spend on digital services in the last year (either financial year or calendar year 2022 is fine - whatever is easier with your data)*

Trust response:

The Trust does not hold this information in a reportable format. We are planning a piece of work which once completed will enable us to answer this type of request towards the end of this year. The Trust has estimated that it will cost more than the appropriate limit to consider your request at this time. The appropriate limit is specified in regulations and represents the estimated cost of one person spending 3½ working days in determining whether the Trust holds the information, locating, retrieving and extracting the information. Under Section 12 of the Freedom of Information Act 2000 the Trust is not obliged to comply with your request and we will not be processing your request further.
