Freedom of Information Act 2000

I am writing in response to your request for information made under the Freedom of Information Act 2000 in relation to SLT (selective laser trabeculoplasty) procedures.

*You asked: All questions are shown as received by the Trust.
Under freedom of information I wish to find out how many SLT laser procedures have been carried out in your trust over the past 5 years, on both NHS and private patients. I would like a breakdown of numbers of procedures done in each year over the past 5 years, ie since 2018.*

Trust response:

Since 2018 there has been one procedure carried out at the Trust. Please note that this figure is for all laser trabeculoplasties procedures. Due to the very small number of cases and in order to protect patient confidentiality the Trust has therefore decided that further more detailed information will be refused using the limitations available under Freedom of Information Act 2000 Section 40(2) (personal information).
