Freedom of Information Act 2000

I am writing in response to your request for information made under the Freedom of Information Act 2000 in relation to Acquired Brain Injury (ABI).

You asked: All questions are shown as received by the Trust.

I am currently researching the cost of care for conditions relating to Acquired Brain Injury (ABI) conditions for patients in a level-3 neuro-rehab facility who are occupying an in-patient bed. I am looking to obtain and explain the care type and funding condition for which I want to gather the information. The funding conditions are as follows:

Spot Purchase Price - In Area – This is classified as the prevailing (latest 2023) daily fee charged by you to the ICS for providing care to an individual who is from your ICS region and is occupying a bed under an immediate requirement and is not contracted for and is made 'on the spot'.

Spot Purchase Price – Out of Area – This is classified as the prevailing (latest 2023) daily fee charged by you to the ICS for providing care to an individual who is an out-of-area patient from another ICS and is occupying a bed in your trust but is paid for by their home ICS, under an immediate requirement and is not contracted for and is made 'on the spot'.

Block contract – This is classified as the average amount spent per individual under a contract that you agree upon as a trust with your home ICS to provide care for an individual needing an inpatient bed for an acquired brain injury treatment in a level-3 neuro-rehab facility.

If the data is unavailable in the format requested, please provide the information in the following format.

Overall Average (in £) – The overall average cost of a patient that occupies a bed in a level-3 neuro-rehab facility.

Trust response:

Maidstone and Tunbridge Wells NHS Trust is not a level 3 neuro-rehab facility. All questions are not applicable.
