## **Freedom of Information Act 2000**

I am writing in response to your request for information made under the Freedom of Information Act 2000 in relation to Urology and General Surgery

*You asked:*

*Please may you provide me with:*

- 1. A list of all current and past audits and quality improvement projects started within the urology and general surgical department over the last 10 years.*
  - 1.1. Please provide date started, date completed, title, objectives, summary, action plan, whether the action plan was completed, and any closing of the loop/repeat.*
  - 2. A list of all current clinical guidelines within the field of urology.*
    - 2.1. Please provide a summary table of each guideline, when it was first created, last updated, frequency of updates*
    - 2.2. Please provide a copy of each guideline in word document or pdf form.*
- 3. A list of clinical chemistry/electrolyte guidelines (e.g. hyperkalaemia, hypokalaemia etc)*
  - 3.1. Please provide a summary table of each guideline, when it was first created, last updated, frequency of updates*
  - 3.2. Please provide a copy of each guideline in word document or pdf form.*

Trust response:

1. Please find below a table showing all the completed Urology and General Surgery audits since 2013. The additional more detailed information requested is exempt under Section 12 of the Act as in order to determine if the Trust hold this information will involve reviewing multiple databases to find the reports and any actions and then reviewing each of the individual reports in order to find the data required. Actions for the majority of these reports are held on a separate archived database which would take time to access and review each of the actions recorded on the report and then to link them to the reports.

Some of the older reports have been archived and the older databases that are no longer used do not have the electronic links to the reports. This would involve searching through our records and files to find any reports. All the versions of the older years' reports were in paper format and are now archived.
