Freedom of Information Act 2000

I am writing in response to your request for information made under the Freedom of Information Act 2000 in relation to an adverse event due to an Electronic Patient Record System issue.

*You asked: All questions are shown as received by the Trust.
We seek to request that your trust shares any FOI responses where your organisation(s) indicated an adverse event due to an Electronic Patient Record System issue.*

Trust response:

The Trust has not had any FOI responses where we have indicated an adverse event due to our EPR system.
We have however, had two responses relating to letters not sent out to the patients GP's. This was not caused by our EPR system but was an issue at the printing provider.

Copies of these responses are attached to the email.
