Freedom of Information Act 2000

I am writing in response to your request for information made under the Freedom of Information Act 2000 in relation to ovarian reserve tests.

*You asked: All questions are shown as received by the Trust.
We have been asked to carry out some research of local IVF/Fertility clinics to obtain an estimate for the cost of ovarian reserve tests.
I should be grateful if you could confirm this is something you deal with and provide an estimate for the cost of such tests and what is involved.*

Trust response:

The phlebotomy team take the blood samples for ovarian reserve tests. The sample is then processed in Maidstone and Tunbridge Biochemistry laboratories and then forwarded for analysis in North Kent. They were centrally analysed for Kent at the Medway laboratory, but are now moving to Dartford.

The Test is funded centrally for Fertility Consultant from Medway, Dartford, East Kent and MTW NHS trusts. We are unable to say what the cost is.
